Only Four Alarms

Little Fire Damage At Vulcan During 1956

The following is part of a report to the Town Council on the Fire Department by Fire Chief J. Lundy Findlay on Monday night.

Fire department equipment is adequate and in good working condition. The only equipment need anticipated for 1957, was a further supply of 2 1/2 inch fire hose and 10 lengths of 50 feet each was suggested to the Council.

The brigade consists of 20 male members, all of whom have been trained in all phases of truck driving and pumping operations and in the laying of hose. In addition to constantly reviewing this training, further training is required in the use of ladders, masks, etc. All are covered by insurance while answering fire alarms and while training under the direction of the fire chief or one of the two deputy chiefs. Three members have requested releases because their occupations do not permit them to keep up regular practices. These three are being replaced and training for the new members and older ones will be carried out as soon as weather and time permits.

Both or either of the fire trucks can be hooked up to cisterns or hydrants and can be hooked up in relay from either source of water to give adequate pressure over a long distance.

At the January meeting of the firemen, discussion centred on how to handle the "big fire or conflagration." Two conflagration hazards were pointed out in which several buildings would automatically be involved if fire breaks out in any of them and plans as to how to combat such a fire were discussed. These plans will be reviewed as to their practicability during subsequent practices.

It was felt that street and house numbering would be of considerable assistance in giving clear directions to the fire department when answering alarms and this was recommended to the Council.

The Town Council was also asked to give consideration to the building of a new fire hall within the next few years, such a hall to be large enough to accommodate four units as well as hose drying facilities.

Present planning includes training the fire brigade members over a period of time in rescue and first aid work, so that ultimately a rescue car could be added to the fire department equipment, which would cope with emergencies other than fire. In this connection a Civil Defence Rescue truck and instructors for a course in rescue work may be available in late March or early April.

In future, more complete records of fires will be maintained to provide information as to cause, extent of damage, action taken, etc.

During 1956 trucks went in answer to alarms only four times and one of these was a false alarm. One farm fire was also attended. The only damage done was at the Armouries and no estimate was recorded. Fourteen practices and three meetings of the fire department personnel were held and one demonstration was given at the public school during fire prevention week. Some home and business inspections were carried out but the full program was not completed. Plans for a more complete inspection of homes and businesses are contemplated for 1957.

Contest Winners At John Deere Show

Winners of the fuel economy marathon contest sponsored by Jesse & Emelson on Jan. 8, in conjunction with the holding of their annual John Deere Day were Lionel Lucas, first; Ed. Kehr, second; Harold Hansen, third. The

contest was estimating how long a Model 820 Diesel 1957 Tractor would operate on five quarts of diesel fuel and the actual time the tractor, with its steering wheel tied down so it would move in a circle, ran on the five quarts of fuel was two hours, 33 1/2 minutes. Prizes of \$20, \$10 and \$5 credits were awarded for the three closest guesses.

Over 200 attended the free showing of films at the Vulcan Theatre. Shortly before the show was due to start it was discovered that one of the films was missing, but phone calls located it in Edmonton, and a plane was chartered to fly it to Vulcan. The trip was made in two hours and the film received in good time.

Door prizes were won by Frank Shaw (10" crescent wrench), Bill Sharp (12" pliers), Harry Roebuck (toy tractor) and Mrs. Leon Bateman (chocolates).

Good Deeds W.I.

The Good Deeds W.I. held their regular meeting at the home of Mrs. Clarence Brown. Due to the cold weather only seven members answered roll call. Plans were made to entertain the members' families some time in February. A donation of \$5 was made to the A.W.I. fund. Mrs. Brown of Calgary donated a box of books to the club for money making purposes. It was decided to charge ten cents a book for every one taken out. After the club is finished with them they are to be donated to the Vulcan Library.

Mrs. C. Dennison, the retiring secretary, gave her report of the past year's activities.

The rest of the afternoon was used in making up the program for the coming year.

The tea raffle was won by Mrs. C. Brown. A lovely lunch was served by the hostess, assisted by Mrs. Ross Lyman and Miss D. Denison.

H & S Meeting Will Feature "Magic Barrel"

The magic of petroleum, as demonstrated by John McCubbin of the Canadian Petroleum Association will be featured at the Vulcan Home and School Association meeting to be held Jan. 22, at 8 p.m., in the Vulcan High School.

His "Magic Barrel" containing many surprises and interesting products made from petroleum, has been shown over 300 times in Western Canada to business clubs, service organizations and conventions.

The highly entertaining talk embodies many startling demonstrations in showing materials used every day but not usually associated with the petroleum industry. Some of these are explosives, plastic rods, petroleum refrigerants, dyes, and various synthetics.

Guests were estimating how long a Model 820 Diesel 1957 Tractor would operate on five quarts of diesel fuel and the actual time the tractor, with its steering wheel tied down so it would move in a circle, ran on the five quarts of fuel was two hours, 33 1/2 minutes. LaRoche-MacLeod Wedding Rites

Evergreen boughs, poinsettias and bouquets of white mums decorated the chancel front of St. Stephen's Anglican Church, Calgary, Friday, Dec. 21, when Norma Isabel MacLeod, daughter of Mr. and Mrs. O. B. Knipfel of Penticton, B.C., became the bride, in a double-ring ceremony, of Jerome (Jerry) Harry LaRoche, son of Mr. and Mrs. H. A. LaRoche of Vulcan. E. H. Maddocks, D.D., performed the marriage rites.

Given in marriage by her stepfather, the bride entered the church to the strain of Lohengrin's "Wedding March," played by the church organist. The bride's gown, in traditional white was of chantilly lace and taffeta, and featured a tight fitting bodice, closed down the back with tiny self-covered buttons, and lily-point sleeves. The skirt flared at the knee, forming a circle of lace and net. Her finger-tip veil, applied with dainty flowers, mistletoe from a small jewelled head-dress. She carried a white Bible, mounted with an orchid, and from which fell satin streamers entwined with tiny rose buds.

Miss Anne DeVaul of Calgary, as bridesmaid wore a waltz-length Christmas red gown of taffeta, with matching small bandeau in her hair. She carried a bouquet of white mums and holly.

The bridegroom was attended by Mr. Ralph Buehler as best man.

Guest pews were marked with white satin bows and sprigs of holly, and Mr. Darrel Maisey of Kirkcaldy and Mr. Charles Herryng, Calgary, were ushers.

During the signing of the register the "Lord's Prayer" was sung by the church soloist, who also sang, "O Perfect Love," preceding the ceremony.

Following the wedding a reception was held at the Glencoe Club, where a buffet lunch was served. Receiving with the bridal couple were the parents of each. Mrs. Knipfel chose for her daughter's wedding an ensemble in deep royal blue, with matching accessories, and she wore a corsage of red roses. The mother of the bridegroom was attired in a turquoise arnaul-faille sheath dress with complementing accessories. Her corsage was of pink roses.

A four-tiered decorated wedding cake, topped with a miniature bouquet, and low bowls of white mums decorated the bride's table.

Mr. W. Brooks proposed the toast to the bride and telegrams of congratulations were read by Mr. Buehler. Guests were from Penticton, B.C., Edmonton, Vulcan, Kirkcaldy, Calgary and Camrose.

Later Mr. and Mrs. LaRoche left for a short honeymoon at Edmonton and have since taken up residence in the Spruce Cliff Apartments in Calgary.

Lee Richardson Named President Berrywater F.U.A.

A joint meeting of the Berrywater F.U.A. and F.W.U.A. locals was held at the home of Mr. and Mrs. William Sharp, Wednesday, Jan. 9, commencing at 2 p.m.

This was the annual meeting of the F.U.A. and was well attended. The secretary-treasurer read the financial statement, showing a balance of \$160.30 in the books. The membership roll for 1956 was 47, with a slight increase for 1957. The following slate of officers elected for the new year was as follows: President, Lee Richardson; vice-president, Allan Sinclair; secretary-treasurer, P. J. Haslam. Directors are Pete Silbernagel, Joe Gerding, Leonard Jones, Archie Oldfield and Clifford Webber.

D. B. Sim gave a full and interesting account of the F.U.A. convention held in Edmonton in December, and which he attended as a delegate from the Berrywater local.

There were 11 members present at the F.W.U.A. meeting, which was opened with the reading in union of the Australian Womens' Creed. After a short business session delegates Mrs. D. B. Sim and Mrs. Ed. Richardson gave excellent reports of the F.W.U.A. convention they had attended. It was decided that many of the speeches and suggestions heard at the convention should be included in the programs for the coming year.

A delicious hot supper was served by Mrs. Sharp and her committee to the members of the locals and their families, at the conclusion of the meetings.

The next meeting will be held Feb. 6, at the home of Mr. and Mrs. D. B. Smith.

Forum Discusses Parity Income

(Contributed)

How can Parity Income for agriculture be achieved? The question of how parity for the farmers can be brought about was the only one asked of the forums on Monday, Jan. 14. This is a many-sided question and there are probably a great many answers but how many of them will work?

At the present time there seems to be two or three plans that would likely help. They are:

(1) "Price supports or deficiency payments" which no doubt would need controls on production. This would possibly work to perfection on a lot of our produce but may lead to trouble on our big export commodities.

(2) A two price system on goods for world trade and for domestic consumption may prove satisfactory. Why shouldn't all citizens share with farmers the costs of producing Canada's varied and plentiful food supply?

(3) A long term solution could lie in the lending of professional help and advice to backward countries in helping them develop their natural resources and industries so as to increase their economy and buying power so that they could buy more of our products at a reasonable price. This undertaking to be sponsored by all food exporting countries and organized under an International Plan.

On Nov. 5, forums were considering whether marketing methods of farm products needs improvement. The answer was a decided "Yes". Obviously our marketing system is not perfect or the agricultural economic level would not be so far below other groups. There is always room for improvement, 90% thought investment by farmers would improve the market system.

The Gaye West Forum of Carmangay met at Rudy Hubka's with a fair attendance, next meeting will be at Wesley Knights, topic, "Is parity income for agriculture enough?"

Buick Century 2-Door Riviera

What's it Got that Everyone's After?

We figured folks would go for the '57 Buick—and big.

But we sure didn't figure this—the most rousing reception we've ever seen in all our years of selling new Buicks.

We're getting more enthusiastic talk—along with the signed orders—than ever before. And, neighbor, if you want to know why—listen:

This '57 Buick has that sleek low-sweep styling that today's moderns want—and it's here in extra-long measure, in the lowest Buick yet. It has the room they want—for Buick's new wide-frame chassis permits a sports-car silhouette with more interior roominess than even last year's spacious Buicks. It has newness everywhere, and newness that's wanted...

A smart new panoramic wind-

shield of vaster dimensions and greater visibility. The sweet, solid surety of a new "nested" ride. A brilliant new handling and cornering and levelized braking that come of an ingenious new ball-joint suspension. It even has the modern answer for today's driving—a new Safety-Minder* that watches your miles-per-hour for you.

But even more important, this rakish sweep of automobile has a new kind of instant response—and that's the biggest reason for the soaring popularity of the newest Buick yet.

For here is performance—smooth as spun silk—unleashed by a totally new V8 engine 364 cubic inches big, and with the highest compression, torque and horsepower in Buick annals.

And here, to deliver that might, is the power-pitch action of an advanced new Variable Pitch Dynaflo.* A Dynaflo of such instantaneous obedience, such smooth and versatile control in "Drive"—the need for "Low" is virtually ended.

In all truth, you've never bossed a car so keenly alive, so smooth in motion, so solid in feel. It's ahead of its time, ahead of the industry—even ahead of your great expectations.

Come check up on all this for yourself. Comedrive this shoulder-high sweetheart with the strong he-and-she appeal. Come be our guest—today.

*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special. Safety-Minder standard on Roadmaster only.

Accident Victims Released From Hospital

We are happy to report that Mr. and Mrs. George Greaves who were involved in an accident early in the New Year, have been released from Bassano hospital.

Mrs. Greaves was the worst victim, as she was thrown against the windshield and was cut about the head and chin, she also had to have stitches inside her mouth, where her denture plate had cut. George had injury to one knee, but not too serious. The truck driver Doug Konschuk, of Cluny, was hauling hay from over east, but wasn't reported injured.

It was one of those freakish accidents one never expects to happen on the prairie. It had snowed shortly before and it was foggy, also that day Mr. and Mrs. Greaves were on their way home to Calgary and on the top of a rise met the truck head on. As both drivers were in the middle of the road no blame can be attached to either driver.

We sincerely hope no lasting effects will be felt by either Mr. or Mrs. Greaves.

EASTWAY

The Eastway Social Club met at the Mrs. Balwins home on Jan. 10, with only nine ladies present due to the cold weather. A letter was received from the District Director of Postal services advising people that the rural mail would be approximately three-quarters of an hour early. Anyone interested in sending woolens for blankets is to get in touch with Clara Tharle. Rosemary Washburn won the raffle and contest and cordially invited the ladies to her place for the February meeting.

MORE THAN SIXTY RECREATIONAL LEADERS from points throughout Alberta attended the annual conference held by the Recreation Section of the Cultural Activities Branch at Red Deer over the holidays. This is one of seven such conferences or schools held by the recreation director each year. Present and incipient recreation directors attend, and return to their home communities to teach their knowledge to residents interested in wholesome and educational recreation. The Department of Economic Affairs, under whose direction the branch operates, makes available grants of up to \$1,000 to organizations employing qualified full time recreation directors.

ENJOYMENT FOR 'CONTESTANTS AND SPECTATORS alike will be available at the annual Interprovincial High School Ski Meet at Jasper February 22 to 24. Your government has assisted financially in supporting this meet as part of the province's tourist attraction and as an instrument in healthy recreational activity for juveniles. Entrants from sixteen schools in Alberta and British Columbia will attend, and will also enjoy the Jasper Winter Carnival staged at the same time. You're going?

WHILE THIS ISN'T EXACTLY THE SEASON of year for touring, one subject that is constantly referred to by visitors who travel by car is the paucity of signboards that line the high-

ways in other areas. Their absence is result of control by the Town and Rural Planning Branch of the Department of Municipal Affairs.

That branch is ready at all times to make a plan for a municipality by which it can expand and grow to best advantage economically and socially. In fact, there is "no job too big or too small" for the branch. It has more than once designed road or highway intersections and other requirements of living or communication. It proffers zoning suggestions for communities and generally helps with specialized engineering advice for municipalities that can't afford such for themselves.

Still a few oilmen and families present, but the rest of the crew have been sent elsewhere. Jimmy Stevenson, ten year old, of the Brant district, who was rushed to the Calgary General

Letters from Mrs. Gorman and Provincial President Mr. Hodgson, were read asking that Home and School Associations to back a petition to the Federal Government to change the Indian Act, so as to prevent a number of the Indians at Hebbema from being forced off the reserve.

This was tabled until the next meeting to give members time to consider it. It was decided to have another talent show this spring.
